

Introduced by Senator LiuFebruary 5, 2013

An act to amend Section 41976 of the Education Code, relating to adult education.

LEGISLATIVE COUNSEL'S DIGEST

SB 174, as introduced, Liu. Adult education: apportionments.

Existing law establishes a system of public elementary and secondary schools in this state, and provides for their funding through, among other types of funding, the apportionment of state funds to local educational agencies in accordance with prescribed criteria. Existing law authorizes school districts and county superintendents of schools to provide specified adult education classes and courses that qualify for the apportionment of state funds from the Adult Education Fund.

This bill would recast and revise the list of classes and courses that qualify for this funding, and would specify that this funding could be claimed by high school districts, unified school districts, and county offices of education. The bill would include courses of preparation for the California High School Exit Examination and the General Education Development (GED) test among the courses qualifying for the apportionment of state funds. The bill would authorize the charging of a fee for adult education courses when apportionment of state funds does not cover the cost of providing the course. The bill would prohibit the apportionment of state funds for adult education courses unless they are approved by the governing board of the local educational agency and receive annual approval from the State Department of Education.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:
